Profile

Aspiring Full-Stack Developer skilled in **Laravel, React, and Next.js**, with experience building dynamic web apps and APIs. Currently developing an **Adaptive Learning Platform** as a graduation project. Eager to contribute to impactful, scalable solutions in a fast-paced tech environment.

Education

high school education, BEHS padaung, Bago Region

2015 – 2017

Consistently performed well academically, maintaining strong grades throughout all academic years. Recognized by faculty and peers for a positive attitude, discipline, and collaborative spirit. Successfully passed every exam without any failures, demonstrating reliability and a strong work ethic.

Computer Science, University of Computer Studies Pyay

2018 – 2025

Pyay, Myanmar

- Actively participated in university events, fostering leadership and collaboration skills
- **Awarded First Prize** in the university's internal project competitions during **2nd and 4th year** for innovation and technical execution
- Successfully passed every semester with a **strong GPA** and consistent academic performance

Professional Experience

Developer Intern, RI IT Company

04/2025 – 07/2025

Yangon, Myanmar

- Developed a fully functional **organic store website**(<https://organic.advtechsolution-mm.com> 🌐) using **WordPress**, gaining hands-on experience with CMS platforms and client-facing development.
- Built and integrated 3 key forms for a **Laravel-based, industry-ready POS system** :
 - **Forgot/Reset Password**
 - **Kitchen Display Screen (KDS)**
 - **Daily Sales Report**
- Wrote **secure API routes** and created **official API documentation** to support future integration and development.
- Actively collaborated with other interns, offering support and guidance by helping debug issues, explain complex code, and rewrite broken form components.
- Known among peers as the **“error remover”**, reflecting strong debugging skills and a team-first mindset.
- Demonstrated a high level of **ownership and responsibility**, working independently and collaboratively within a real-world developer environment.
